

ORGCIDE DZ

ORGCIDE DZ is a blend of fungicides with synergetic effect against development of mould.

Aspects	: Reddish yellow liquid
pH	: In 10% aqueous solution, 5.5 - 7.5
Stability	: Excellent in pickle and Chrome tanning floats
Solubility	: Forms fine emulsion in water
Biodegradability	: 100% biodegradable. Free from PCP

PROPERTIES

ORGCIDE DZ

- Highly efficient preservative, a combination of TCMTB with OIT to get a maximum spectrum activity against main fungus species found in wet blue such as *Aspergillums Niger*, *Trichoderma viride* and *Penicilium*.
- Being combination of two biocides, it works efficiently even if some mould becomes resistant to one biocide.
- Being easily emulsifiable with water, it gets distributed & fixed in all parts of leather.

APPLICATIONS

ORGCIDE DZ can best perform when pH is < 7.0

Based on pelt / pickle wt

0.1-0.3% **ORGCIDE DZ** (1:10 in water) can be used

SHELF LIFE

If **ORGCIDE DZ** is stored between 15°C and 35°C, the product has a shelf life of one year. Special care should be taken to close the drums after use. If separation occur due to high temperature, stir well before use.
