

ORG TAN FAP

ORG TAN FAP is Protein filler with selective filling properties with a tendency to fill the loose portion of leather.

Aspect	: Light yellow powder
Basis	: Natural protein with selective filler
Moisture content	: 6.0% Max.
pH	: In 10% aqueous solution, 5.5 – 7.5
Solubility	: Easily dispersible in Luke warm water

PROPERTIES

ORG TAN FAP

- Controls double layer in Newzealand and English sheep skins
- Deposits in the empty parts of the skin, and between grain and the reticular layer.
- Can be added to the chrome tannage, Chrome free tannage or retannage to get Full, round handle.
- Reduce growth mark, so improved selection, so better cutting value
- Imparts smooth, fine, flat and firm grain and is environment friendly.
- When used in retanning the compactness of fibres improve and hence it imparts short nap on suede and nubuck.
- Does not bleach the shades as it has got its own receptivity to dyes.

APPLICATIONS

ORG TAN FAP is used in retanning and it is offered in powder form after dyes, in short float 5 to 10 minutes before fatliquor to get full, round and tight grain.

During retanning:

(All % on shaved wt.)

Garment sheep skins	: 3.0 – 6.0%	ORG TAN FAP
Thin Upper leather	: 3.0 – 5.0%	ORG TAN FAP
Thick Upper leather	: 2.0 – 4.0%	ORG TAN FAP
Splits / Suede leathers	: 4.0 – 8.0%	ORG TAN FAP

ORG TAN FAP

During Chrome tanning:

(All% on pelt wt.)

For cow hide : 1.0 – 1.5%

ORG TAN FAP

For sheep and goat skins : 1.0 – 2.0%

ORG TAN FAP

SHELF LIFE

In cool & dry condition it can be stored for more than 2 years, but when kept in humid and elevated temperatures some caking may be observed.
