Aspect	: Light yellow colour powder
Basis	: Pyrogallol tannin powder of Myrobalan
Moisture content	: 7.0% Max.
pH	: In 10% aqueous solution 2.5 – 3.5
Tannins min	: 33%
Light fastness	: Good

PROPERTIES

ORG TAN ME

- Is preferred tanning agent for the production of sole leather E.I kips and buff calf leathers.
- Due to its reserve acidity it gives mellow tanning effect and promotes the fixation of condensed tannin type of materials.
- When blended with catechol tannins will impart light colour, fullness with plumpness and firmness to the leather.

APPLICATIONS

- For making sole leathers **ORG TAN ME** used along with mimosa extract.
- For making E.I kips Buff calf in drum or pit tanning.
- For making shrunken grain upper leathers.
- In retanning along with syntans.
- Dosage depends on the process requirement.

SHELF LIFE

In cool & dry condition it can be stored for more than 2 years, but when kept in humid and elevated temperatures some caking may be observed.
