

ORGTAN NP Liq

Neutralizing syntan with buffering and mellow retanning effect

Appearance	: Reddish brown liquid
Basis	: Aromatic sulfonic acids with masking agents
pH	: 7.0 ± 1.0
Solids	: $45\% \pm 2\%$
Solubility	: Excellent
Light fastness	: Very good

PROPERTIES

- **Orgtan NP Liq** is a lightfast neutralizing syntan with mellow retanning effect and high affinity for acids. It is noted for a mild, penetrating and neutralizing effect
- **Orgtan NP Liq** helps to disperse the other retanning syntan and thus distribute it more evenly in the leather.
- **Orgtan NP Liq** does not loosen the grain during neutralization and no coarsening of the grain during subsequent application of vegetable and synthetic tanning agents. Thus smooth and fine grain
- **Orgtan NP Liq**, due to its acid-binding properties, has a basifying effect on chromium salts. With its high buffer properties it can be used without risk in chromium baths.
- **Orgtan NP Liq** improves the penetration of anionic dyes.

APPLICATIONS

Neutralization (% based on shaved weight)

Small skins : 1.0 – 1.5 % **Orgtan NP Liq** 40 min

Hides : 1.5 – 2.0 % **Orgtan NP Liq** 60 min

Basifying (% based on pickle weight)

1.0 - 1.5 % **Orgtan NP Liq** 120 min

SHELF LIFE

ORGTAN NP LIQ. has a shelf life of one year if it is stored in its original sealed package. Drums should be tightly resealed each time material is taken from them and their content should be used up as soon as possible after they have been opened.

Technical suggestions without any obligation.
