

APLF Leather Fair, Dubai (Mar 30 – Apr 01, 2022):

- The Asia Pacific Leather Fair (APLF 2022) was a huge success for the GG Organics team! The Fair was held at the Dubai World Trade Centre from March 30 to April 1, 2022.
- GG Organics was honoured to participate in the leather fair, and we took advantage of the opportunity to reconnect with customers and members of the global leather industry.
- Furthermore, this was the ideal time and place for us to launch our eco-friendly biopolymer range of chemicals, reaffirming our commitment to the critical issue of sustainability that the leather industry is facing. We also displayed our extensive range of cr free and sustainable biopolymer experimented leathers at the APLF fair.
- GG Organics received a positive response and appreciation from APLF fair visitors for all our sustainable leathers.
