

## APLF ASEAN - a leather and fashion material exhibition

**GG Organics** participated at the **APLF ASEAN Fair** as it is an ideal place for showcasing its wide range of products and interacting with industry experts as well as current and new customers.

From the **APFL Dubai Fair** to the **APLF ASEAN, Bangkok Fair**, it's great to see that in-person events are becoming more frequent this year.

GG Organics received a positive response and appreciation from APLF fair visitors for their extensive range of biopolymer leathers, bisphenol free, chrome free water proof leathers, garment/suede articles, and US/Australian leathers.

GG Organics will continue to take part in events like these to strengthen customer and business relationships. This is in line with the company's objective of making eco-friendly products that meet global standards and providing service to customers in order to be a leader in meeting the challenges of future needs.
